Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group I, claims 1-11, in the reply filed on 30 April 2007 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, line 1, there is no antecedent basis for "said clamp assembly".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1744

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoshino (US patent 5,222,706).

The patent to Hoshino discloses the invention as is claimed, including a wiper assembly (fig.1) having an elongate tubular frame (6) with a plurality of pivot mechanisms (3.5), one at each end thereof. Each pivot mechanism has a flange portion with an arcuate surface (3c, fig.2) which fits over the tubular frame and a "pin mounting portion". Retaining assembly (13) retains the mechanisms to the tubular frame.

With respect to claims 1 and 4, defining a pin mounting portion does not define any particular structure not disclosed by Hoshino. Part of the pivot mechanism of Hoshino could receive or mount pins if so desired. Nothing would prevent such.

With respect to claim 3, note figure 2 which shows a groove (3a) in the arcuate receiving surfaces. Such groove defines a pair of spaced ribs on opposite sides thereof.

With respect to claim 4, the flange portions appear as generally rectangular.

Allowable Subject Matter

It appears claims 6-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 1744

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
